The CPG can accomodate one Tierra observer on the OSI vessel West Cove which will be sampling RM 0 on Tuesday and Newark Bay on Wed and Thurs. We can not accomodate them on the vessels at the other LPR stations or above Dundee Dam on Mon and Tues. They are welcome to observe tributary sampling and observe the Dundee Dam sampling from the shore.

The Tierra observer should provide all relevant and required H&S documentation to AECOM and OSI and should coordinate with Kristen and John who can tell them on meeting locations and times.

Rob,

Tierra would like to send an observer for next week's sv event and for the hv sampling.

Can you check with AECOM/OSI whether there is room for an additional person?

Let me know, thank you.
